WORK EXPERIENCE

Front-End Developer Intern, Dihardja Software Solution   March 2025 - Present
- Collaborated with designers and backend developers to build responsive, user-centered web interfaces using React.js, Webflow, Tailwind CSS, and Figma.
- Assisted in developing and maintaining features to ensure high performance and consistency across projects using GitHub and Visual Studio Code.

Part-Time Laboratory Teaching Assistant, Binus University   January 2024 – January 2025
- Trained and supervised teaching assistants in the use of classroom technology and teaching methods for more than 200 undergraduates students.
- Case making for Multimedia Programming (JavaFX) & Database Technology

EDUCATION

Bachelor of Computer Science   September 2022 – Present
Binus University
- Currently a 7th-semester Computer Science student with a GPA of 3.92.
- Coursework includes Software Engineering, Front-End & Back-End Web Development, and Object-Oriented Programming.

High School Diploma   July 2019 – April 2022
Pahoa High School
- Graduated High School as a Science major.

PROJECTS

SPIN CMS – Sistem Informasi Perwilayahan Industri Nasional   Octoober 2025 – December 2025
- **National industrial data platform:** Built **SPIN CMS** as a centralized system supporting **100+ industrial regions and zoning datasets**, serving multiple government stakeholders in national industrial planning.
- **Scalable CMS & accessibility:** Implements a structured content system to manage **dozens of regulations and regional indicators**, delivering a **100% responsive, user-friendly experience** across all devices.
- **Modern geospatial tech stack:** Developed using **Next.js, PostgreSQL, MapLibre,** and **ShpJS** to process **spatial datasets** and **render interactive industrial maps** with fast, reliable performance.

Expenze — Personal Finance Web Application   July 2025 – August 2025
- **Transaction tracking platform**: Built a personal finance app that manages **100+** transactions across multiple payment methods, enabling users to monitor expenses and income in one place.
- **Insightful & Usable UI**: Implements expense and income categorization to deliver **clear financial insights**, supported by a clean, **fully responsive interface** focused on usability.
- **Modern front-end stack**: Developed using **Next.js, Tailwind CSS, Clerk, Neon, and Drizzle ORM**, achieving fast load times and seamless data handling for a smooth user experience.

Foster Legal   June 2025 – July 2025
- **Modern, responsive platform**: Built with **Webflow** to deliver a high-performance, fully responsive experience across **100%** of devices, aligning with the firm's precision and client-focused approach.
- **Scalable content management**: Uses **Webflow CMS Collections** to efficiently manage **50+** annual publications and case updates without technical assistance.
- **Consistent, growth-ready design**: Implements a modular design system across **20+** pages, ensuring visual consistency, accessibility, **SEO optimization**, and long-term scalability for local and international audiences.

DITJEN KPAII – Direktorat Jendral Ketahanan, Perwilayahan, dan Akses Industri Internasional   April 2025 – June 2025
- **Authoritative government platform**: Developed the KPAII website using **Next.js** and **Directus CMS** as a centralized digital hub for the **Directorate General under Kemenperin**, serving **national and international stakeholders**.
- **Scalable, data-driven architecture**: Implements a flexible content structure supporting **multiple content types**—policy news, industrial data, integrated industrial zones, regulations, and key performance indicators such as the Industrial Confidence Index.
- **Efficient content management & UX**: Empowers the internal team to manage **frequent updates and reports** through Directus, while delivering a **fully responsive, user-friendly experience** across 100% of devices.

ORGANIZATION EXPERIENCE & VOLUNTEER

Disney Voluntears   September 2024
- Contributed to Disney's Zero Hunger initiative by participating in food distribution programs aimed at reducing hunger and supporting underprivileged communities.
- Collaborated with fellow volunteers to prepare, package, and deliver meals while promoting awareness about food security and community well-being.

Freshman Leader for B2028   August 2024 – September 2024
Freshman Partner for B2027   September 2023 – July 2024
- Assisting freshmen with any difficulties they may encounter during their academic journey and provide materials that can help them in their 1st year of study.

Freshman Leader for B2027   August 2023 – September 2023
- Helping more than 50 Freshman to understand the academic procedures at Binus University, introducing the campus areas, and guiding Freshman in the completion of projects.
